

## **More Good News**

### **2018-19 Mill Rate Decreases from 9.62 to 9.43**

This year we again have more good news. The mill rate for 2018-19 has decreased due in a large part to an approximately 5% increase in equalized property value for our district. When we designed the referendum two years ago, we used the best available information to keep the mill rate at the 10.11 mill rate that was in effect at the time. However, the district mill rate has actually decreased each of the past two budgets. The enrollment has seen less of a decline than anticipated and property values have increased more than anticipated. Overall, the referendum design is doing what we had hoped. The amount of dollars you contribute to our district has remained fairly consistent. Your continued support helps make our student success possible.

Happy Holidays and Best Wishes for a great 2019!

Marc Christianson, District Administrator
